Custom plans may include, in particular, the following services:

- educational service (not foreseen for the sixty-six);
- personal and / or home assistance (personal assistance means the person's assistance, while home care is related to the care of the same person's living environment);
- reception at authorized day centers, limited to the payment of the social security fee;
- stay at social and sociological facilities and authorized health care residences for not more than 30 days within a year and limited to the payment of the social security fee;
- sports and / or social activities (not foreseen for the sixty-six).

The Municipality prepares the plan in collaboration with the family of the person concerned and, if necessary, with the health services, on the basis of appropriate assessment sheets:

- the "Health Card" on the assessment of the situation of the person with disabilities (senses and language, daily activities, relationship life).
- the "Social Card", which contains the additional information necessary for the preparation of the personal plan (age, benefits, family cares, particular discomfort situations ...). ").

Depending on the information in the two tabs, the City will assign to the Custom Plan a score to determine the maximum amount of eligible funding. Subsequently, the body will determine the amount that may actually be allocated on the basis of income

# PLUS (UNITARY LOCAL PLAN OF PERSONAL SERVICES): WHAT IS?

The Unitary local Plan for Personal Services (P.L.U.S.) is the programming tool provided by a regional law on personal service reorganization. It is a plan of interventions and actions that has to be elaborated and realized with the contribution of a number of actors called to engage in a common path and that, for this purpose, will have to find shared tools, methods and languages.

Through this tool, the various actors that build the network of services to the people in the district (Hospitals: Municipalities, Provinces, Professional Actors, Social and Solidalists, etc) together set goals and priorities, plan and place Integrated social, health and social interventions, also with the direct contribution of citizens

# PLUS (UNITARY LOCAL PLAN OF PERSONAL SERVICES) WHAT IS?

The P.L.U.S., albeit in line with national and regional programming, will have to be implemented locally, taking into account the specificities of the individual spatial areas involved and will represent the strategic planning tool for social-health integration for:

- Promote sharing of responsibility and resources;
- Identify the needs, resources, and development potential of territory;
- Implement Community Social Development Programs;
- Defines responses to the health and social needs of the Population of the territory;
- Implement essential service levels.

# PLUS (UNITARY LOCAL PLAN OF PERSONAL SERVICES) WHAT IS?

The Plan defines actions over the three-year period. Three-year programming is needed because time and constancy is needed to achieve high-quality health results. An annual economic-financial update can be required and, in the same implementation period, the re-modification of content will be permitted, if deemed necessary.

# PLUS (UNITARY LOCAL PLAN OF PERSONAL SERVICES) WHERE IS?

Nughedu Santa Vittoria is one of the municipalities that is part of a PLUS: it is called the Healthcare district of Bosa – Ghilarza. It gives several services to the population of many municipalities in the west central part of Sardinia, not only for healthcare but even social services (we will focus on the first).

# PLUS (UNITARY LOCAL PLAN OF PERSONAL SERVICES) HOW DOES IT WORK?

The Plus has a PUA (Unique point of access): it is the way all the citizens can access healthcare and choose the better service through:

- ▶ Giving information and answers;
- ▶ Giving the chance to every citizen to go in only one place for all the needs;
- ▶ Helping communication between health professionals and citizens.
